Cost & Use Sheet – Bare Root & Plugs

- Forest Seedling Nurseries
- Ornamental Seedling Handlers
- Christmas Tree Farmer
- Bare Root Planters
- Plug Planters
- Bare Root & Plug Shippers

Nursery Propagation Drench: Each pound treats 100,000 seedlings. Mix with water to apply as a drench with backpack or spray rig. Apply just as roots appear and again just before hardening off for shipment.

DIEHARD™ Ecto Injectable (soluble)

DHEI25 – 30 lb pail = \$979.50

Each pail treats 3 million trees

COST: 33 CENTS PER THOUSAND

Lifting and Packaging Root Gel: Each pound treats 10,000 seedlings. Spray or dip roots when packaging for storage and shipping. Not just a gel root dip but contains Ectomycorrhiza Fungi, Soluble Sea Kelp, Soluble Humic Acid, Soluble Yucca Plant Extract, Beneficial Bacteria and Horta-Sorb® Water Management Gel.

DIEHARD™ Ecto Root Dip

DHERD30 – 30 lb pail = \$358.70

Each pail treats 30,000 trees

COST: 36 CENTS PER THOUSAND

Bare Root Gel: Each pound treats 10,000 seedlings and makes 15-20 gallons. Spray or dip roots when packaging for storage and shipping. Gels manage water only, therefore we strongly recommend you use one of the bio-charged probiotics from the list above.

Horta-Sorb® SM (0.2 – 0.8 mm)

HSSM25 – 25 lb bag = \$282.89

Each bag treats 30,000 trees

COST: 9.5 CENTS PER THOUSAND
